Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

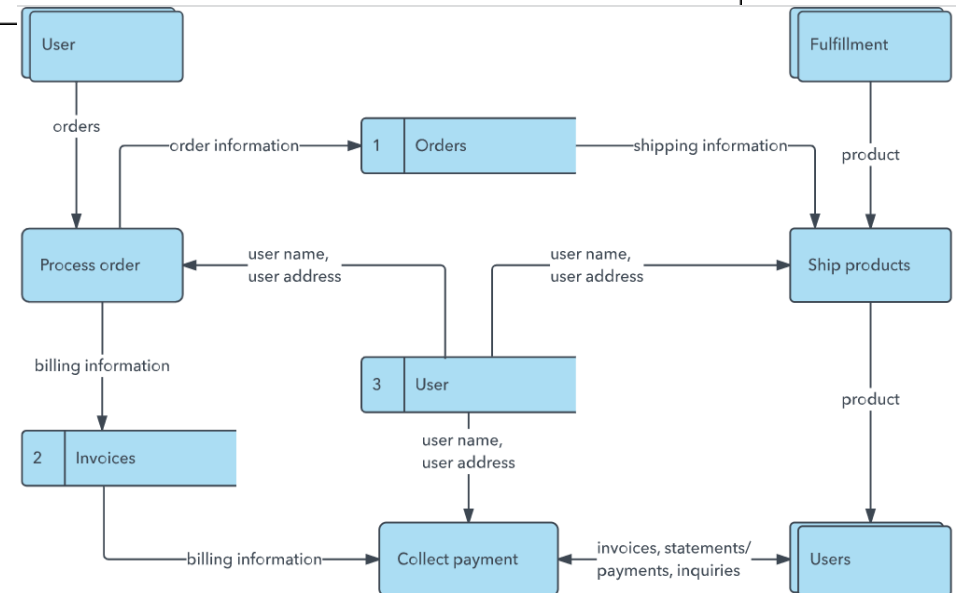

Example: (Simplified)

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

Example: DFD Level 0 (Industry Standard)

UserStories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story/Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account/ dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with Facebook Login	Low	Sprint-2
		USN-4	As a user, I can register for the application through Gmail	I can register & access the dashboard with Gmail login	Medium	Sprint-1
	Login	USN-5	As a user, I can log into the application by entering email & password	I can securely access the app dashboard after login	High	Sprint-1
	Dashboard	USN-6	As a user, I can view my profile and account summary on the dashboard	Dashboard displays username, profile picture, and details	High	Sprint-2
Customer (Web user)	Data	USN-7	As a user I want to access the web.	I can access my data online	High	sprint-2
Customer Care Executive	positive relationship	USN-8	As a user I WANT THE HEALTHY RELATION	I GET GOOD RESPONSE	High	Sprint-3
Administrator	System Monitoring	USN-9	As an admin, I can monitor overall app usage statistics	Can generate usage reports	High	Sprint-2
