MaximumMarks	4Marks

Solution Architecture:

Solutionarchitectureisacomplexprocess–withmanysub-processes–thatbridges the gap between business problems and technology solutions. Its goals are to:

- Findthebesttechsolutiontosolveexistingbusinessproblems.

- Describethestructure,characteristics,behavior,andotheraspectsofthe software to project stakeholders.

- Definefeatures,developmentphases,andsolutionrequirements.

- Providespecificationsaccordingtowhichthesolutionisdefined,managed, and delivered.
